Traffic Calming - In and Out of Gifford

Following many complaints of speeding, the GCC commissioned some research from the East Lothian Council (ELC) to measure the amount of vehicles breaching the 30mph speed limit.

The results were that an astonishing **75%** of vehicles were measured driving in **excess** of the **30mph limit** on the roads in and out of Gifford.

We are in further consultation with the ELC to take matters forward (eg. The implementation of physical measures to slow down vehicles). Before we proceed, can you please let us know if we have your support?
